

Persons over the age of 60 are the fastest growing segment of the population in the United States. As the older adult population continues to increase nationally, the older population in Florida grows at an even faster rate. More than 178,350 people in Hillsborough County are over the age of 60. While a number of these older adults are Florida natives, with families who are able to care for them, many retire to the state and are without family to assist them as they become more vulnerable. The Elder Justice Center was established, to ensure that elderly citizens in Hillsborough County have fair and reasonable access to the courts.

### Program Funding

The Elder Justice Center is funded by the Florida State Courts System and by Hillsborough County.
